## Program Operations TRANSMITTAL

---

Transmittal Number: C4K-POL- 16-13

Date: December 20, 2016

---

**To:** Sherri Sutera, Program Director  
Care 4 Kids Program

**From:** Harriet Feldlaufer, Director of Early Care and Education  
Office of Early Childhood

**CC:** Distribution List

**Subject:** PG2 and PG3 Closure for New Applications

---

A handwritten signature in blue ink, appearing to be "H. Feldlaufer", is written over the "From:" line.

**Program Issue:** Effective December 31, 2016, the Care 4 Kids Program will be closed to new applications for low-income working parents who are former recipients of Temporary Assistance for Needy Families (TANF) within 5 years (PG2), and teen parents ages 18 and 19 who attend high school or equivalent (PG3). These families who are program eligible will be placed on a wait list.

**Background:** The Federal Government has made many changes to the child care subsidy program, which impact Connecticut's Care 4 Kids Program. These new Federal requirements have increased the costs to provide subsidy through the Care 4 Kids Program. Under the regulations, the agency must accept applications and authorize payments based on the applicable order of priorities only within available funding. Regulations of Connecticut State Agencies § 17b-749-08 (a).

**Implementation:** In order to ensure that the Care 4 Kids Program continues to exist "within available funding" the following changes shall occur to the Care 4 Kids program effective December 31, 2016.

- The Care 4 Kids Program will be closed to new applications for low-income working parents, who are former recipients of Temporary Assistance for Needy Families (TANF) within 5 years (PG2), and teen parents ages 18 and 19 who attend high school or equivalent (PG3).
- **All families** currently enrolled in the Care 4 Kids Program who meet the current eligibility requirements will remain eligible at **redetermination**.
- Families who are receiving TANF (PG1) and meet the eligibility requirements will remain eligible for the program at **both initial application and redetermination**
